📍 Costa Rica, Alajuela, San Carlos, La Fortuna.

Profile

I am a software developer with skills in a wide variety of technologies and my experience includes working with CMS and frameworks based on the MVC (Model-View-Controller) architecture pattern, and I also have knowledge of database technologies. I specialize in web development, and my focus is on creating customized solutions for my clients. I have developed strong skills in designing and creating attractive and highly functional websites, which allows me to manage projects from start to implementation. I am passionate about web development and am always looking for new ways to improve my skills and stay up-to-date with the latest trends and technologies.

Professional Experience

Web Developer, Agencia Pentaseis

2020 – 2023

- Participating in daily scrum meetings, sprint planning, unit testing, and bug fixes.
- Assist the Senior Developer with designing, deploying, coding, maintaining, and contributing to fixing bugs in the existing projects.
- Code using HTML, CSS, Javascript, PHP, C#, and Python.
- Applied media queries to create responsive websites across different sizes of screens.
- Verified content and formatting in various browsers and platforms for quality assurance.
- I worked closely with the QA and Product Management teams and other developers to ensure quality and punctual software development.

Customer Service

2011 – 2020

- I worked for many years as a receptionist in different hotels providing customer service.

Education

High School Diploma, Ministry of Public Education Costa Rica

2006 – 2018

School Diploma, School Dulce Nombre Coronado

2000 – 2005

Projects

Online reservation system

04/2023 – present

I am using the MVC design pattern with the Laravel framework, React for the frontend, and MySQL for the database. I plan to adapt this system for various tourism businesses in the area where I live.

DeylerAF, My Portfolio Website

This is my website portfolio and it's made using PHP, HTML, CSS, and JavaScript. I use it to upload samples of the projects I have done.

Sound River Spa, Spa Business Website

01/2023 – 04/2023

Sound River Spa is a website that I created for a massage spa in my town. To create the website, I used PHP, WordPress, MySQL, HTML, CSS, and JavaScript.

Skills

Programming Languages
